Medicaid Waivers for Eligible Nebraskans

October 2023

Medicaid Home and Community-Based Services Waivers

A Medicaid Home and Community-Based Services (HCBS) waiver allows states to use Medicaid funds to provide services to people with disabilities in their homes and community, who would otherwise be served in an institution. The Centers for Medicare and Medicaid Services (CMS) approves state waivers. **A person must receive Medicaid to be on a waiver.** Participation in a Medicaid HCBS Waiver is voluntary and personcentered.

To be eligible for any Medicaid HCBS waivers, you must:

- 1) Be a citizen of the United States of America or a qualified alien under the federal Immigration and Nationality Act and be lawfully present in the United States;
- 2) Be a resident of the State of Nebraska; and
- 3) Be receiving Medicaid.

Each waiver has its own eligibility requirements. **A person can only be on one waiver at a time**, though they may receive services on one waiver while waiting for another waiver to become available to them.

There are two waivers to serve people with disabilities, who meet Nursing Facility (NF) Level of Care and want to receive services and support in their community:

- Aged and Disabled (AD) Waiver: For people of all ages who have a disability and people over 65 years old.
 Intended to help people live at home.
- Traumatic Brain Injury (TBI) Waiver: For people ages 18 and older who have had a traumatic brain injury. This waiver is not for acquired brain injury caused by strokes, tumors, and other non-traumatic causes. Intended to help people with TBIs to live at home.

There will be three waivers to serve people with developmental disabilities, who meet Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID) Level of Care:

- Comprehensive Developmental Disabilities (CDD) Waiver: Offers services for daytime community integration and residential support. The focus is on teaching independent living skills in a person's home. This waiver is for people of all ages, though day services become available at age 21.
- **Developmental Disabilities Adult Day (DDAD) Waiver**: Offers services focused on daytime community integration and inclusion, including job support or teaching skills for future employment. This waiver is for people ages 21 and older.
- Family Support Waiver (FSW): This waiver is expected to begin in 2024. Will offer services and supports to help children with developmental disabilities continue to live in their family home. This waiver will be for people from birth to age 21 years old.
