## Purpose of the TAP

The Technical Assistance (TA) program provides training and hands-on support to individuals and providers upon request.

## Role of the TAP Team

- Acts as a coordinator for TA requests
- Creates a resource library of best practice materials that can be shared across providers.
- Analyzes data to identify providers or regions that need additional targeted support and provide outreach in the form of consultation
- Provides at least four systemic education programs per year to providers and/or Support Coordinators based on data analysis.

## What's next?

Watch for communication from the Department of Developmental Disabilities and Liberty throughout the month as we plan to begin offering this service in May 2024.
