### **Nebraska Preadmission Screening and Resident Review (PASRR)**

Kepro has been Nebraska's PASRR vendor since January 1, 2021. PASRR Level 1 screenings and Resident Reviews for significant change have been successfully completed through Kepro's online portal with instant results. Kepro also completes PASRR Level II evaluations and determinations via the online portal.

***New to PASRR?*** Your facility may already have an active account. Kepro is happy to assist you with obtaining a new user account, or your new facility account, if one does not already exist.

Facilities only need to register one time and then the administrator of the facility account will create all additional users.

**To submit a Level 1 PASRR, you must register with Kepro to receive access to their portal, also known as Atrezzo.**

Register for access to Kepro's Nebraska's Provider Portal at <https://portal.kepro.com>
