Nebraska Preadmission Screening and Resident Review (PASRR)

Per Federal regulations - when an individual requests admission to or continuous residence in a Medicaid-certified bed in a nursing facility, a Preadmission Screening and Resident Review (PASRR) determination is required before Medicaid can consider payment to a Nursing Facility (or Hospice providing services in a Nursing Facility). Individuals with a Serious Mental Illness (SMI), Intellectual Disability (ID), or Related Condition (RC) require further review through the Level II evaluation process.

The current contractor for the PASRR process is Kepro.

Here is the link to Nebraska Kepro for further information:
