Dear Mr. Brunssen:

The Centers for Medicare & Medicaid Services (CMS) has completed its review of the substance use disorder (SUD) Monitoring Protocol, which is required by the Special Terms and Conditions (STC) of Nebraska's section 1115 demonstration, "Substance Use Disorder (SUD) Program" (Project No. 11-W-10025/7). CMS has determined that the monitoring protocol, which was submitted on October 26, 2020, meets the requirements set forth in the STCs, and thereby approves Nebraska's SUD monitoring protocol.

The monitoring protocol is approved for the demonstration period through June 30, 2024 and is hereby incorporated into the demonstration STCs as Attachment D. In accordance with STC 42 (Public Access), the approved SUD monitoring protocol may now be posted to your state's Medicaid website.

If you have any questions, please contact your CMS project officer, Ms. Juliana Sharp. Ms. Sharp is available to answer any questions concerning your section 1115 demonstration and may be reached by email at Juliana.Sharp@cms.hhs.gov.

We look forward to our continued partnership on Nebraska’s Substance Use Disorder (SUD) Program section 1115 Medicaid demonstration.

Sincerely,

3. Acknowledgement of Budget Neutrality Reporting-

The state has reviewed the Budget Neutrality workbook provided by the project officer and understands the expectations for quarterly and annual monitoring reports. The state will provide the requested budget neutrality information (no modifications).

4. Retrospective reporting

If a state's monitoring protocol is approved after its first quarterly monitoring report submission date, the state should report data to CMS retrospectively for any prior quarters of SUD demonstration implementation. States are expected to submit retrospective metrics data in the state's second monitoring report submission after monitoring protocol approval, or propose an alternative plan for reporting retrospectively on its SUD demonstration.

In the monitoring report submission containing retrospective metrics data, the state should also provide a general assessment of metrics trends from the start of the state's demonstration through the end of the current reporting period. The state should report this information in Part B of its report submission (Table 3: Narrative Information on Implementation, by Milestone and Reporting Topic). This general assessment is not intended to be a comprehensive description of every trend observed in metrics data (for example, unlike other monitoring report submissions, the state is not required to describe all metrics changes (+ or - greater than 2 percent). Rather, the assessment is an opportunity for states to provide context for its retrospective metrics data, to support CMS's review and interpretation. For example, consider a state that submits data showing an increase in the number of medication assisted treatment (MAT) providers (Metric #14) over the course of the retrospective reporting period. The state may decide to highlight this trend to CMS in Part B of its report (under Milestone 4) by briefly summarizing the trend and providing context that during this period, the state implemented a grant that supported training for new MAT providers throughout the state.

The state will report retrospectively for any quarters prior to monitoring protocol approval as described above, in the state's second monitoring report submission after protocol approval.

The state proposes an alternative plan to report retrospectively for any quarters prior to monitoring protocol approval: *Insert narrative description of proposed alternative plan for retrospective reporting. State should provide justification for its proposed alternative plan.*

5. Reporting SUD Demonstration Metrics and Narrative Information

The state should review the guidance in Appendix A of the instructions document in order to attest it will follow CMS's guidance on reporting metrics and narrative information, or propose any deviations. The state should complete Table A below to reflect its proposed reporting schedule for the duration of its SUD demonstration approval period.

The state has completed the table below according to the guidance in Appendix A of the instructions document and attests to reporting metrics and narrative information in its quarterly and annual reports according as described.

The state has reviewed Appendix A of the instructions document and completed the table below with the following deviations: *Insert narrative description of proposed changes to reporting. State should provide justification for any proposed deviation.*

*The state will delay reporting on established quality measures for CY2019 until the state’s DY2Q1 report, to allow time for the state to transition to using Version 3.0 of the technical specifications manual.

*In this example, the state’s SUD demonstration was added to its broader 1115 demonstration by amendment at the start of the broader 1115 demonstration’s third demonstration year. States that do not have a broader 1115 demonstration (i.e., that have a SUD demonstration only) should delete this column.

**In this example, the state reports its established quality measures in the second quarterly report following the annual report because its demonstration year ends on 12/31; this lag allows adequate time for claims runout and other data completeness issues, as well as time to incorporate annual measure steward updates to specifications. States with demonstration years that end January 31 or February 28 should instead report established quality measures in the first quarterly report following the annual report. All other states should report established quality measures in the annual report.
