

Medicaid and Long-term Care Casualty Unit is sending this letter in response to a recent report of a third party, which may be liable to pay for the costs of medical claims paid by Nebraska Medicaid fee for service and/or its Managed Care Organizations (MCOs).

In addition to any medical assistance provided by Nebraska Medicaid fee for service; there may be one or more MCOs responsible to recover the cost of medical assistance provided in relation to the incident reported. Nebraska Medicaid fee for service does not have access to the MCOs' claims systems. Each MCO **must be contacted** to obtain their lien/subrogation for a specific incident. (NOTE: There may be two or more liens/subrogations for each NE Medicaid client for each incident.)
