# eCR Onboarding

## Registration

- HCO registers for eCR @ NE DHHS eCR Registration
- NE DHHS contacts HCO

## Onboarding with CDC

- NE DHHS facilitates contact between HCO and CDC eCR team (if EHR capable of eCR)
- HCO and NE DHHS attend CDC eCR webinar

## Connection & Testing

- HCO receives next steps and begins working on them
- HCO establishes connectivity with AIMS Platform
- HCO joins eCR Cohort, if applicable
- HCO conducts testing
- CDC eCR and NE DHHS eCR teams to provide support to HCO until requirements are met and data is ready to move to Production

## Parallel Validation

- CDC eCR Team approves HCO for sending Production data ("go-live")
- NE DHHS validates production data in State's TEST environment
- HCO continues manual reporting during this phase

## Production

- NE DHSS moves data to the State's Production environment
- Complete parallel validation and continue to monitor data
- HCO notified to turn off manual reporting and CDC is updated

**Onboarding process duration varies depending on EHR Vendor Product and HCO resources.**
