

THE MATERNAL, INFANT, AND EARLY CHILDHOOD HOME VISITING PROGRAM

FORM 2

CONSTRUCT 1: PRETERM BIRTH

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 1 ANALYSIS?

NUMERATOR: Number of live births (index child or subsequent children among mothers who enrolled in home visiting prenatally before 37 weeks) born before 37 completed weeks of gestation and after enrollment

DENOMINATOR: Number of live births after enrollment who were born to mothers enrolled in home visiting prenatally before 37 weeks

CONSTRUCT 2: BREASTFEEDING

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 2 ANALYSIS?

NUMERATOR: Number of infants aged 6-12 months (index child among mothers who enrolled in home visiting prenatally) who were breastfed any amount at 6 months of age

DENOMINATOR: Number of infants aged 6-12 months (index child among mothers who enrolled in home visiting prenatally) enrolled in home visiting for at least 6 months

CONSTRUCT 3: DEPRESSION SCREENING

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. When there is no documentation of whether a screening occurred using a validated tool, but all other data elements are known, then the primary caregiver should be included in the denominator (if eligible), but not in the numerator. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 3 ANALYSIS?

NUMERATOR: For those not enrolled prenatally, number of primary caregivers enrolled in home visiting who are screened for depression within the first 3 months since enrollment; for those enrolled prenatally, the number of primary caregivers screened for depression within 3 months of delivery

DENOMINATOR: For those not enrolled prenatally, the number of primary caregivers enrolled in home visiting for at least 3 months; for those enrolled prenatally, the number of primary caregivers enrolled in home visiting for at least three months post delivery

CONSTRUCT 4: WELL CHILD VISIT

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown, including if a home visit occurred but the home visitor did not collect the data. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 4 ANALYSIS?

NUMERATOR: Number of children (index child) enrolled in home visiting who received the last recommended well child visit based on the AAP schedule

DENOMINATOR: Number of children (index child) enrolled in home visiting.

CONSTRUCT 5: POSTPARTUM CARE

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 5 ANALYSIS?

NUMERATOR: Number of mothers enrolled in home visiting prenatally or within 30 days after delivery who received a postpartum visit with a healthcare provider within 8 weeks (56 days) of delivery

DENOMINATOR: Number of mothers who enrolled in home visiting prenatally or within 30 days after delivery and remained enrolled for at least 8 weeks (56 days) after delivery.

CONSTRUCT 6: TOBACCO CESSATION REFERRALS

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown, including if there is no documentation of whether the primary caregiver used tobacco or cigarettes at enrollment since inclusion in the denominator cannot be determined if the screening result is unknown. When there is no documentation of whether a referral was provided, but all other data elements are known and inclusion in the denominator can be determined, then the primary caregiver should be included in the denominator (if eligible), but not in the numerator.

WHAT GOES INTO CONSTRUCT 6 ANALYSIS?

NUMERATOR: Number of primary caregivers enrolled in home visiting who reported using tobacco or cigarettes enrollment and were referred to tobacco cessation counseling or services within 3 months of enrollment.

DENOMINATOR: Number of primary caregivers enrolled in home visiting who reported using tobacco or cigarettes at enrollment and were enrolled for at least 3 months.

CONSTRUCT 7: SAFE SLEEP

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 7 ANALYSIS?

NUMERATOR: Number of infants (index child aged less than 1 year) enrolled in home visiting whose primary caregiver reports that they are always placed to sleep on their backs, without bed-sharing and without soft bedding

DENOMINATOR: Number of infants (index child) enrolled in home visiting who were aged less than 1 year during the reporting period.

CONSTRUCT 8: CHILD INJURY

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. All cases of missing data.

WHAT GOES INTO CONSTRUCT 8 ANALYSIS?

NUMERATOR: Number of parent-reported nonfatal injury-related visits to the ED during the reporting period among children (index child) enrolled in home visiting

DENOMINATOR: Number of children (index child) enrolled in home visiting

CONSTRUCT 9: CHILD MALTREATMENT

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 9 ANALYSIS?

NUMERATOR: Number of children (index child) enrolled in home visiting with at least 1 investigated case of maltreatment following enrollment within the reporting period

DENOMINATOR: Number of children (index child) enrolled in home visiting

CONSTRUCT 10: PARENT-CHILD INTERACTION

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. When there is no documentation of whether the index child received an observation of caregiver-child interaction by the home visitor using a validated tool, but all other data elements are known, then the index child should be included in the

denominator (if eligible), but not in the numerator. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 10 ANALYSIS?

NUMERATOR: Number of primary caregivers enrolled in home visiting who receive an observation of caregiver- child interaction by the home visitor using a validated tool

DENOMINATOR: Number of primary caregivers enrolled in home visiting with children reaching the target age range.

CONSTRUCT 11: EARLY LANGUAGE AND LITERACY ACTIVITIES

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 11 ANALYSIS?

NUMERATOR: Number of children (index child) enrolled in home visiting with a family member who reported that during a typical week s/he read, told stories, and/or sang songs with their child daily, every day.

DENOMINATOR: Number of children (index child) enrolled in home visiting.

CONSTRUCT 12: DEVELOPMENTAL SCREENING

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. When there is no documentation of whether a screening occurred using a validated tool, but all other data elements are known, then the child should be included in the denominator (if eligible), but not in the numerator. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 12 ANALYSIS?

NUMERATOR: Number of children (index child) enrolled in home visiting with at least one screening within the AAP-defined age groups during the reporting period

DENOMINATOR: Number of children (index child) enrolled in home visiting reaching the specified time frame during the reporting period.

CONSTRUCT 13: BEHAVIORAL CONCERN INQUIRIES

MISSING DATA

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. If a home visit occurred, but there is no documentation of whether the primary caregiver was asked about behavioral concerns, then the home visit should be included in the denominator (if eligible – i.e., postnatal visit), but not in the numerator. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 13 ANALYSIS?

NUMERATOR: Number of postnatal home visits where primary caregivers enrolled in home visiting were asked if they have any concerns regarding their child's development, behavior, or learning

DENOMINATOR: Total number of postnatal home visits during the reporting period.

CONSTRUCT 14: INTIMATE PARTNER VIOLENCE SCREENING

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. When there is no documentation of whether a screening occurred using a validated tool (including if a screening did not occur because the caregiver was male and they only have validated tools for use among female caregivers), but all other data elements are known, then the primary caregiver should be included in the denominator (if eligible), but not in the numerator. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 14 ANALYSIS?

NUMERATOR: Number of primary caregivers enrolled in home visiting who are screened for IPV using a validated tool within 6 months of enrollment

DENOMINATOR: Number of primary caregivers enrolled in home visiting for at least 6 months.

CONSTRUCT 15: PRIMARY CAREGIVER EDUCATION

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 15 ANALYSIS?

NUMERATOR: Number of primary caregivers who enrolled in or maintained continuous enrollment in middle school or high school, or completed a high school degree or equivalent after enrollment in home visiting (and met the conditions specified in the denominator)

DENOMINATOR: Number of primary caregivers without a high school degree or equivalent at enrollment

CONSTRUCT 16: CONTINUITY OF INSURANCE COVERAGE

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 16 ANALYSIS?

NUMERATOR: Number of primary caregivers enrolled in home visiting who reported having continuous health insurance coverage for the most recent 6 consecutive months at the most recent data collection time point in the reporting period

DENOMINATOR: Number of primary caregivers enrolled in home visiting for at least 6 months

CONSTRUCT 17: COMPLETED DEPRESSION REFERRALS

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. Data are also considered missing if there is no documentation of whether a referral was provided. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 17 ANALYSIS?

NUMERATOR: Number of primary caregivers enrolled in home visiting who received recommended services for depression (and met the conditions specified in the denominator)

DENOMINATOR: Number of primary caregivers enrolled in home visiting who had a positive screen for depression within 3 months of enrollment (for those not enrolled prenatally) or within 3 months of delivery (for those enrolled prenatally) and were referred for services

CONSTRUCT 18: COMPLETED DEVELOPMENTAL REFERRALS

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. When there is no documentation of whether a referral was provided, but all other data elements are available and inclusion in the denominator can be determined, then the primary caregiver should be included in the denominator (if eligible), but not in the numerator. All cases of missing data should

WHAT GOES INTO CONSTRUCT 18 ANALYSIS?

NUMERATOR: Number of children enrolled in home visiting who a) received individualized developmental support from a home visitor; b) were referred to early intervention services and receive an evaluation within

45 days; OR c) were referred to other community services who received services within 30 days (and met the condition specified in the denominator)

DENOMINATOR: Number of children enrolled

CONSTRUCT 19: INTIMATE PARTNER VIOLENCE REFERRALS

MISSING DATA*

Data are considered missing if one or more data elements needed to determine inclusion in the numerator or denominator are unknown. When there is no documentation of whether a referral was provided, but all other data elements are available and inclusion in the denominator can be determined, then the primary caregiver should be included in the denominator (if eligible), but not in the numerator. All cases of missing data should be excluded from the measure calculation.

WHAT GOES INTO CONSTRUCT 19 ANALYSIS?

NUMERATOR: Number of primary caregivers enrolled in home visiting who received referral information to IPV resources (and met the conditions specified in the denominator)

DENOMINATOR: Number of primary caregivers enrolled in home visiting with positive screens for IPV (measured using a validated tool) within 6 months of enrollment
