Governor appointed

Message from Director Green

Dear Nebraskans,

As we approach the end of another year, I want to thank you all for your support and collaboration throughout Fiscal Year (FY) 2024. It is our privilege to serve around 15,500 Nebraskans who are disabled and/or aging across our great state and at the Beatrice State Developmental Center (BSDC). Our goal remains to ensure that each Nebraskan lives the highest quality of life as they work, age, play, and pursue their goals.

This year we have embarked on a transition that will transform the Developmental Disabilities (DD) system to ensure that each eligible person and their family will receive specialized services at the time of need by eliminating the current DD Waitlist. Creating a needs-based system that supports every eligible Nebraskan with a disability is our fundamental change. This is doing business smarter and doing the right thing. We couldn't do this without everyone's support and will end the wait for services by October 2025.

In FY 2024, the DD Division continued to expand. In January 2024, we welcomed the Medically Handicapped Children's Program (MHCP), Lifespan Respite Subsidy Program, and the Disabled Children's Program (DCP). In June 2024, the State Unit of Aging (SUA) also joined the division. Under SUA the Aging and Disability Resource Center (ADRC) program increased services for Nebraskans by 36 percent.

In FY 2024, the DD Division increased the service array within the Traumatic Brain Injury Waiver, creating opportunities for services to be provided across the state in a variety of settings, including services to support those who want employment. The Division also partnered with VA HUD/VASH to allow section 8 funding to supplement room and board for veterans in Assisted Living Facilities receiving the Aging/Disabled Waiver.

Please enjoy this end-of-the-year report and take a few minutes to reflect on the last 12 months alongside us.

Sincerely,

Tony Green

Director, Division of Developmental Disabilities

Division of Developmental Disabilities At-A-Glance

The Division of Developmental Disabilities (DDD) provides administration and funding for Medicaid Home and Community-Based Services to participants who are aging or disabled, through five (5) Medicaid Home and Community-Based Services 1915 (c) Waivers.

- Aged and Disabled Waiver (AD)
- Traumatic Brain Injury Waiver (TBI)
- Family Support Waiver (FSW)
- Developmental Disabilities Adult Day Waiver (DDAD)
- Comprehensive Developmental Disabilities Waiver (CDD)

The Division oversees the Beatrice State Developmental Center (BSDC). The Beatrice State Developmental Center is a 24-hour state and federally funded residential treatment facility dedicated to the provision of specialized psychological, medical and developmental supports to people with intellectual and developmental disabilities

The Division integrated Special Health Care Needs services into its comprehensive services, effective January 2024. These services include: Medically Handicapped Children's Program (MHCP), Disabled Persons and Family Support (DPFS), Disabled Children's Program (DCP), Genetically Handicapped Person's Program (GHPP) and Lifespan Respite Subsidy (LRS).

Pictured above: Service Coordination Lincoln team members.

Division of Developmental Disabilities At-A-Glance

Pictured above: State Unit on Aging in recognition of 2024 Elder Abuse Awareness day.

This Division manages the State Unit on Aging, which oversees funding to help Nebraskans stay in their homes. These funding sources include the Older Americans Act, the Nebraska Community Aging Services Act, and the Aging & Disability Resource Center Act. Area Agencies on Aging and other providers deliver a wide range of services to the community. These services promote health, safety, and long-term independence.

The Division administers the Developmental Disabilities Court-Ordered Custody Act (DDCOCA). This statute was enacted in the early 2000's and was first utilized in 2009. These statutes were created to find appropriate treatment options for individuals who have a developmental disability and present a high risk of harm to others.

In partnership with the Division, the Advisory Committee on Developmental Disabilities advises the Division on funding and delivery of services. This includes:

- Providing oversight to make sure people placed in the custody of the department under the Developmental Disabilities Court-Ordered Custody Act receive the least restrictive treatment and services necessary;
- Overseeing the design and implementation of the quality management and improvement plan; and
- Assisting, providing feedback, and guiding the implementation of the family support program.

6% Unknown
69% White (Not Hispanic)

Home and Community-Based Services Waivers

Number of Persons Served by Waiver - FY 2024

Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) Level of Care

Comprehensive Developmental Disabilities (CDD) Waiver

5,023

For people of all ages with a developmental disability.

Developmental Disabilities Adult Day (DDAD) Waiver

499

For people ages 21 and over with a developmental disability.

Family Support Waiver (FSW)

19

For people ages birth to 21 years with a developmental disability.

Family Support Waiver (FSW)

March 1, 2024 waiver approved by Centers for Medicare & Medicaid Services (CMS)

FSW will serve up to 850 children with developmental disabilities.

Each participant will have a maximum annual budget of \$10,000.

Home and Community-Based Services Waivers

Number of Persons Served by Waiver - FY 2024

Nursing Facility (NF) Level of Care

Traumatic Brain Injury (TBI) Waiver

21

Available for people ages 18 to 64 with a traumatic brain injury diagnosis.

Aged and Disabled (AD) Waiver

10,054

For people ages 65 and older, and people of all ages with disabilities.

Traumatic Brain Injury (TBI) Waiver

expanded on October 1, 2023,
to support participants in a variety of settings.

TBI Providers

Prior to expansion TBI services were historically provided by one provider. By the end of FY 2024 we have seen growth!

Provider Training

16

Agency
Provider

5

Independent
Provider

have completed the TBI
Training through DHHS.

Provider Enrollment

15

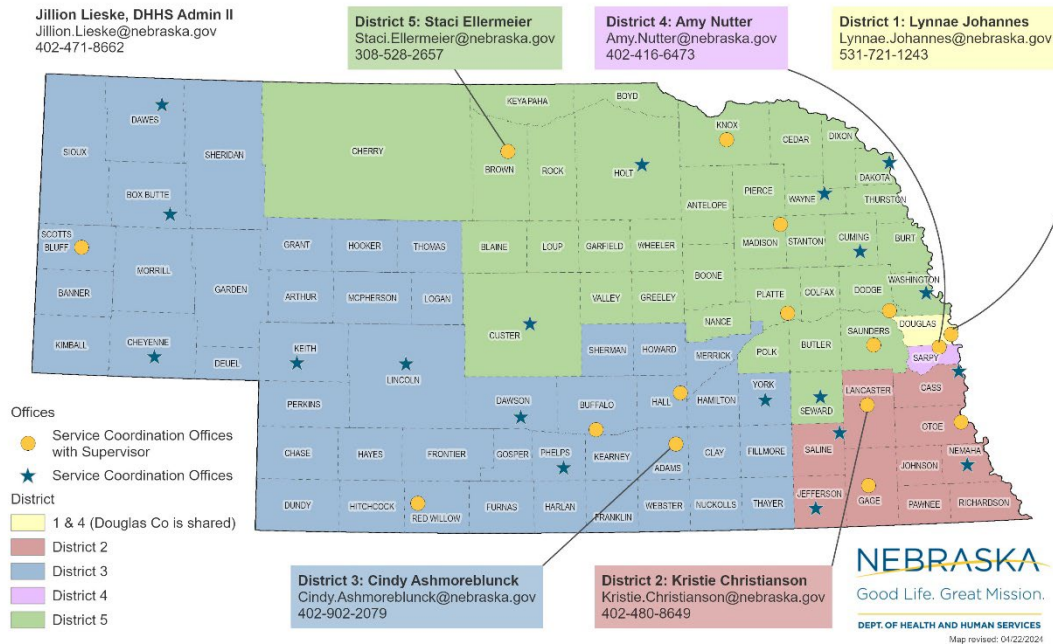

Providers are approved as Medicaid providers for the TBI Waiver through Maximus.

Service Coordination for Waivers

Service coordination assists participants in coordinating services, developing Person-Centered Plans (PCP), monitoring service deliveries and ensuring the health and welfare of the participants they support.

For the DD waivers service coordination is provided by DDD.

Developmental Disabilities Service Coordination

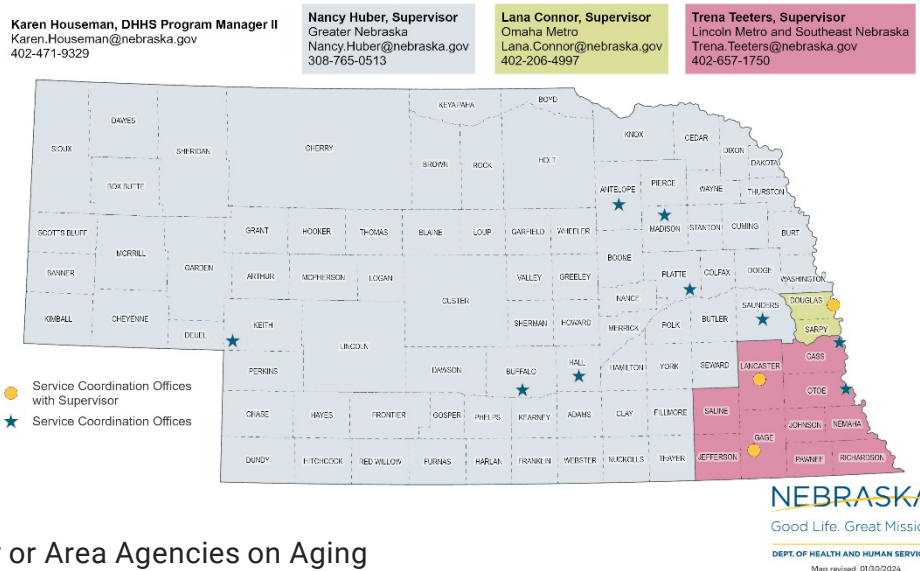

For the AD Waiver, service coordination is provided by DDD for participants ages 3 to 17 years old.

Aged and Disabled Service Coordination

Contracted agencies provide service coordination for other ages:

- Birth – 3 years:
Early Development Network
- 18 years and older:
League of Human Dignity or Area Agencies on Aging

Programs for Special Health Care Needs

Number of Persons Served by Programs - FY 2024

Same Programs, New Division

DHHS moved programs related to Special Health Care Needs under DDD on January 1, 2024. This integration of these programs into DDD was part of the expansion to broaden the continuum of support for individuals and connect additional resources and services. The expansion of these services to the Division was in direct alignment with the commitment to provide inclusive and comprehensive services to meet the diverse needs of our community.

Disabled Persons and Family Support (DPFS)

240 served

The DPFS program assists persons of all ages who have a medically determinable chronic disability. The program is designed for the preservation of the family unit, maintaining independent living situations, and for disabled adults to remain or become employed.

Genetically Handicapped Persons Program (GHPP)

4 served

The GHPP program provides specialized medical services for persons diagnosed with Cystic Fibrosis, Hemophilia, and/or Sickle Cell disease. Available to eligible participants 21 and older.

Lifespan Respite

494 served

The program is a service designed to provide caregivers a break from the demands of ongoing care for recipients with special needs. Lifespan Respite is available for eligible participants and their unpaid family caregivers to purchase respite services.

Medically Handicapped Children's Program (MHCP) – includes Disabled Children's Program (DCP)

1,275 served

MHCP provides specialized medical services, such as diagnostic/consultative services and treatment services, for children and youth with special health care needs. DCP serves children and youth with disabilities through payment assistance for non-medical services and supports such as respite care, medical mileage, and home/vehicle modifications.

State Unit on Aging Demographics

The State Unit on Aging oversees funding to assist Nebraskans in staying in their homes and communities. Funding sources include the Older Americans Act, the Nebraska Community Aging Services Act, and the Aging & Disability Resource Center Act.

SENIOR VOLUNTEER PROGRAM

To Have A Friend; To Be A Friend

The purpose of the Nebraska Senior Volunteer Program is to provide volunteer community service opportunities for older Nebraskan's following priorities outlined in the federal Older Americans Act.

854 Individuals were served in FY 2024.

**14,888.5 hours of service
provided.**

Services included: personal care, nutrition duties, social or recreational activities, home management, information and advocacy, respite care, service senior center meals, and home delivered meals

"To Have A Friend; To Be A Friend"

3 Senior Volunteer Programs serving 9 Counties:

Buffalo, Nemaha, Deuel, Cheyenne, Dawes, Sioux, Kimball, Garden, Sheridan

Beatrice State Developmental Center

The Division oversees Beatrice State Development Center (BSDC) Intermediate Care Facilities home to Individuals with Intellectual Disabilities (ICF/IID).

of FY 2024

57 years

Average Age

39 years

Average Length of Stay

BSDC is a 24-hour state and federally funded residential treatment facility dedicated to the provision of specialized psychological, medical and developmental supports to people with intellectual and developmental disabilities.

Crisis Stabilization Unit

Crisis Stabilization Unit (CSU) and Community Reintegration Program began in May 2017, to address a critical gap in serving the population participating in home and community-based services (HCBS) DD waiver programs.

- Placement at the specialized unit designed to be a temporary stay.
- The Crisis Program provides a period of intense treatment and habilitation.
- The participant's team from the Crisis Program continues transition supports for a period of time after they integrate back into the community with a DD risk provider.

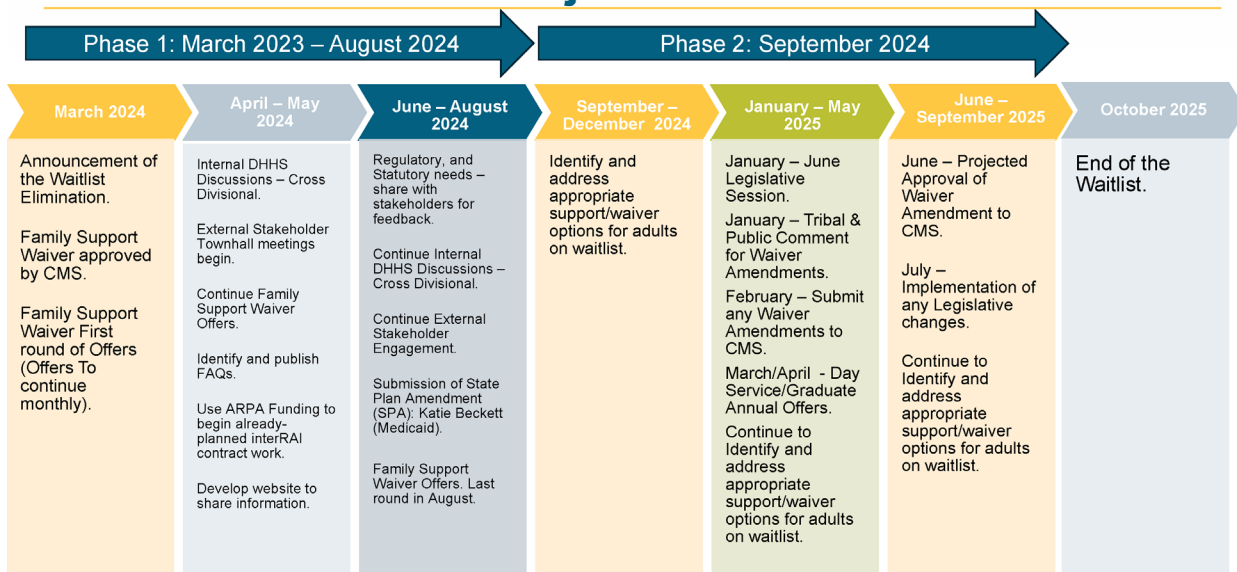

Fiscal Year 2024

Ending the DD Waitlist

In March 2024, Governor Jim Pillen joined DDD to announce a comprehensive plan to eliminate the wait for developmental disabilities services. This will better support Nebraskans with intellectual and developmental disabilities (IDD). The Waitlist Elimination Project aims to provide timely access to services for all eligible individuals by October 2025.

Waitlist Elimination Projected Timeline

Expanding Access to Services: Project Outcomes

Timely Service Access

All eligible individuals are projected to receive services by October 2025.

“ This is a breakthrough way to reimagine how services are offered to individuals with IDD in Nebraska and save taxpayer dollars. This is the first time in Nebraska history the DD Registry will be eliminated, which is a huge step forward to ensure all Nebraskans have the opportunity and support to live the Good Life. ”

Governor Pillen, March 2024

Enhanced Quality of Life

By reducing wait times and improving service coordination, the project aims to enhance the overall quality of life for individuals with IDD and their families.

Disabilities (DD)
waiver in FY 2024.

Transition to the interRAI

In the final quarter of FY 2024, DDD launched an initiative to transition from the Developmental Index (DI) to the interRAI assessment tool to modernize practices and improve person-centered care.

Stakeholder engagement was held in June 2024. DDD held sessions led by Myers & Stauffer to introduce the interRAI. Sessions focused on:

- The purpose and benefits of interRAI tools.
- How these tools are already used in Nebraska's AD and TBI Waivers.
- Plans for adoption in the Developmental Disabilities (DD) program.

What is the interRAI?

A COMPREHENSIVE TOOL

The interRAI suite offers standardized assessments that provide reliable, person-centered data across multiple domains.

MULTI-PURPOSE USE

It will be used for eligibility decisions, determining individual budgets, acuity-based rate reimbursements, and informing person-centered planning.

SUPPORTS NEBRASKA'S GOALS

Aligned with both state and federal regulations, interRAI is encouraged by CMS for its validated approach.

Benefits

ENHANCED PERSON-CENTERED PLANNING

Provides a holistic view of individual needs and supports person-centered conversations.

EFFICIENCY GAINS

Serves multiple purposes with a single assessment, saving state administrative resources.

STATE AND FEDERAL ALIGNMENT

Questions conform to current and proposed Nebraska regulations; CMS encourages the use of standardized assessments.

An interRAI pilot project is planned for FY25.

Quality Management

The Division of Developmental Disabilities began partnership with Liberty Healthcare Corporation in January 2021.

Mortality Reviews

Liberty reviews **100%** of mortalities on Home and Community-Based Services (HCBS) Waivers and at the Beatrice State Developmental Center

Increase Education

Training Topics:

- Identifying changes in health status.
- Recognizing and responding to Fatal Five Plus conditions.
- How to respond to acute care needs.

Critical Incident Management Process (CIMP) and Root Cause Analysis (RCA)

The Critical Incident Management Process (CIMP) process reviews 100% of high notification General Event Reports (GERs), 10% of medium GERs on the CDD and DDAD waivers; and 100% of GERs for the AD and TBI waivers.

281 RCAs complete

Liberty uses RCA to work with providers to determine causes of incidents and identify solutions to prevent similar incidents in the future.

Human and Legal Rights Advisory Committee (HLRAC)

The HLRAC began in Dec 2023. It evaluates and provides consultation regarding human and legal rights and restrictions, and ensures people are exercising their full rights.

251 Participant's rights restrictions reviewed

Technical Assistance Program (TAP)

TAP began in May 2024 to provide training and technical assistance (TA) to providers based on requests.

The TAP team will:

- Receive and review TA requests.
- Coordinate needed assistance.
- Create a resource library.
- Analyze data to identify providers or regions that need additional support.
- Provide trainings

National Core Indicators

Nebraska participates in three National Core Indicator (NCI) survey processes: Aging and Disabilities (NCI-AD), Developmental Disabilities (NCI-DD), and workforce. The surveys to help assess the quality of life for adults receiving services from the Division of Developmental Disabilities.

The University of Nebraska Medical Center, Munroe-Meyer Institute partners to conduct face-to-face interviews with adults receiving services.

The **goal is to improve services for the people of Nebraska** by using the feedback and opinions gathered from the Nebraskan's using those services.

Aged and Disabled (AD) Survey Report

The Aging and Disabilities National Indicators Survey (NCI-AD) reaches out to adults receiving services through the Aged and Disabled Waiver and the Traumatic Brain Injury Waiver, and individuals receiving services through nursing care facilities or in their homes through the Personal Assistance Services (PAS) program.

Celebrating DD Awareness Month

In March 2024, DDD celebrated DD Awareness month with a proclamation signed by Governor Jim Pillen to recognize March as DD Awareness Month. Thank you to who joined us for the proclamation signing!

DD Awareness Month Awards

In March 2024, DDD celebrated DD Awareness month by encouraging individuals with intellectual or developmental disabilities (IDD) and members of the developmental disabilities community across Nebraska to nominate individuals, providers, community leaders, and employers for one of four awards.

The outpouring of nominations was commendable. DDD awarded three winners per award as listed on the following pages.

Celebrating DD Awareness Month

Individual Spotlight Award

Recognized people with IDD who overcame adversity to achieve or go beyond their goals. These individuals demonstrated a drive to be better, a desire to be more independent, and want to make a difference in their lives and the lives of others.
