- (3) The department has suspended, revoked, or refused to renew the existing license of the health care facility;
- (4) The health care facility is closing, or has informed the department that it intends to close, and adequate arrangements for the relocation of the residents or patients of such health care facility have not been made at least thirty days prior to closure; or

- (1) The department shall file the petition for the appointment of a receiver provided for in section 71-2085 in the district court of the county where the health care facility is located and shall request that a receiver be appointed for the health care facility.
- (2) The court shall expeditiously hold a hearing on the petition within seven days after the filing of the petition. The department shall present evidence at the hearing in support of the petition. The licensee, owner, or operator may also present evidence, and both parties may subpoena witnesses. The court may appoint a temporary receiver for the health care facility ex parte if the department, by affidavit, states that an emergency exists which presents an imminent danger of death or physical harm to the residents or patients of the health care facility. If a temporary receiver is appointed, notice of the petition and order shall be served on the licensee, owner, operator, or administrator of the health care facility within seventy-two hours after the entry of the order. The petition and order may be served by any method specified in section 25-505.01 or the court may permit substitute or constructive service as provided in section 25-517.02 when service cannot be made with reasonable diligence by any of the methods specified in section 25-505.01. A hearing on the petition and temporary order shall be held within seventy-two hours after notice has been served unless the licensee, owner, or operator consents to a later date. After the hearing the court may terminate, continue, or modify the temporary order. If the court determines that the department did not have probable cause to submit the affidavit in support of the appointment of the temporary receiver, the court shall have the jurisdiction to determine and award compensatory damages against the state to the owner or operator. If the licensee, owner, or operator informs the court at or before the time set for hearing that he or she does not object to the petition, the court shall waive the hearing and at once appoint a receiver for the health care facility.
- (3) The purpose of a receivership created under this section is to safeguard the health, safety, and continuity of care of residents and patients and to protect them from adverse health effects. A receiver shall not take any actions or assume any responsibilities inconsistent with this purpose. No person shall impede the operation of a receivership created under this section. After the appointment of a receiver, there shall be an automatic stay of any action that would interfere with the functioning of the health care facility, including, but not limited to, cancellation of insurance policies executed by the licensee, owner, or operator, termination of utility services, attachments or setoffs of resident trust funds or working capital accounts, and repossession of equipment used in the health care facility. The stay shall not apply to any licensure, certification, or injunctive action taken by the department.

The receiver shall give priority to expenditures for current, direct resident care, including nursing care, social services, dietary services, and housekeeping;

(3) Be responsible for the payment of taxes against the health care facility which become due during the receivership, including property taxes, sales and use taxes, withholding, taxes imposed pursuant to the Federal Insurance Contributions Act, and other payroll taxes, but not including state and federal taxes which are the liability of the owner or operator;

(4) Be entitled to and take possession of all property or assets of residents or patients which are in the possession of the licensee, owner, operator, or administrator of the health care facility. The receiver shall preserve all property, assets, and records of residents or patients of which the receiver takes possession and shall provide for the prompt transfer of the property, assets, and necessary and appropriate records to the alternative placement of any transferred or discharged resident;

(5) Upon order of the court, provide for the orderly transfer of all residents or patients in the health care facility to other suitable facilities if correction of violations of federal and state laws and regulations is not possible or cannot be completed in a timely manner or there are reasonable grounds to believe the health care facility cannot be operated on a sound financial basis and in compliance with all applicable federal or state laws and regulations or make other provisions for the continued health, safety, and welfare of the residents or patients;

(6) Perform regular accountings; and

(7) Make periodic reports to the court and the department.

The receiver in its discretion may, but shall not be required to, defend any licensure, certification, or injunctive action initiated by the department after its appointment. The receiver shall not appeal or continue the appeal of any licensure or certification action initiated by the department against the health care facility before the appointment of the receiver. - (c) By the receiver, stating that all residents or patients of the health care facility have been relocated elsewhere and that there are reasonable grounds to believe it will not be feasible to again operate the health care facility on a sound financial basis and in compliance with federal and state laws and regulations and asking that the court approve the surrender of the license of the health care facility to the department and the subsequent return of the control of the premises of the health care facility to the owner of the premises; or
- (d) By the department (i) stating that the deficiencies in the operation, maintenance, or other circumstances which were the grounds for establishment of the receivership have been corrected and that there are reasonable grounds to believe that the health care facility will be operated in compliance with all applicable statutes and the rules and regulations adopted and promulgated pursuant thereto or (ii) stating that there are reasonable grounds to believe that the health care facility cannot be operated in compliance with federal or state law and regulations and asking that the court order the removal of the residents or patients to appropriate alternative placements, the closure of the facility, and the license, if any, surrendered to the department or that the health care facility be sold under reasonable terms approved by the court to a new owner approved for licensure by the department.

(2) If the receivership has not been terminated within twelve months after the appointment of the receiver, the court shall, after hearing, order either that the health care facility be closed after an orderly transfer of the residents or patients to appropriate alternative placements or that the health care facility be sold under reasonable terms approved by the court to a new owner approved for licensure by the department. The receivership period may be extended as necessary to protect the health, safety, and welfare of the residents or patients.

STATUTES PERTAINING TO SUDDEN INFANT DEATH SYNDROME AND SHAKEN BABY SYNDROME

71-2101. Sudden infant death syndrome; legislative findings.

The Legislature finds that sudden infant death syndrome is the sudden, unexpected death of an apparently healthy infant less than one year of age that remains unexplained after the performance of a complete postmortem investigation, including an autopsy, an examination of the scene of death, and a review of the medical history. The Legislature further finds that, despite the success of prevention efforts, sudden infant death syndrome has been the second leading cause of death for infants in Nebraska for the last twenty years. Although there are no known ways to prevent sudden infant death syndrome in all cases, there are steps that parents and caregivers can take to reduce the risk of sudden infant death. The Legislature further finds and declares that there is a present and growing need to provide additional programs aimed at reducing the number of cases of sudden infant death syndrome in Nebraska.

71-2102. Abusive head trauma; legislative findings.

The Legislature finds that abusive head trauma may occur when an infant or child is violently shaken as part of a pattern of abuse or because an adult has momentarily succumbed to the frustration of responding to a crying infant or child. The Legislature further finds that the injuries sustained by the infant or child can include brain swelling and damage, subdural hemorrhage, intellectual disability, or death. The Legislature further finds and declares that there is a present and growing need to provide programs aimed at reducing the number of cases of abusive head trauma in infants and children in Nebraska.

After viewing the presentation and reading the materials or upon a refusal to do so, the hospital, birth center, or other medical facility shall request that the mother and father, if available, sign a form stating that he or she has viewed and read or refused to view and read the presentation and materials. 71-6018.01. Nursing facility; nursing requirements; waiver; procedure.

(1) Unless a waiver is granted pursuant to subsection (2) of this section, a nursing facility shall use the services of (a) a licensed registered nurse for at least eight consecutive hours per day, seven days per week and (b) a licensed registered nurse or licensed practical nurse on a twenty-four-hour basis seven days per week. Except when waived under subsection (2) of this section, a nursing facility shall designate a licensed registered nurse or licensed practical nurse to serve as a charge nurse on each tour of duty. The Director of Nursing Services shall be a licensed registered nurse, and this requirement shall not be waived. The Director of Nursing Services may serve as a charge nurse only when the nursing facility has an average daily occupancy of sixty or fewer residents.

(2) The department may waive either the requirement that a nursing facility or long-term care hospital certified under Title XIX of the federal Social Security Act, as amended, use the services of a licensed registered nurse for at least eight consecutive hours per day, seven days per week, or the requirement that a nursing facility or long-term care hospital certified under Title XIX of the federal Social Security Act, as amended, use the services of a licensed registered nurse or licensed practical nurse on a twenty-four-hour basis seven days per week, including the requirement for a charge nurse on each tour of duty, if:

(a)(i) The facility or hospital demonstrates to the satisfaction of the department that it has been unable, despite diligent efforts, including offering wages at the community prevailing rate for the facilities or hospitals, to recruit appropriate personnel;

(ii) The department determines that a waiver of the requirement will not endanger the health or safety of individuals staying in the facility or hospital; and

(iii) The department finds that, for any periods in which licensed nursing services are not available, a licensed registered nurse or physician is obligated to respond immediately to telephone calls from the facility or hospital; or

(b) The department has been granted any waiver by the federal government of staffing standards for certification under Title XIX of the federal Social Security Act, as amended, and the requirements of subdivisions (a)(ii) and (iii) of this subsection have been met.

(3) The department shall apply for such a waiver from the federal government to carry out subdivision (1)(b) of this section.

(4) A waiver granted under this section shall be subject to annual review by the department. As a condition of granting or renewing a waiver, a facility or hospital may be required to employ other qualified licensed personnel. The department may grant a waiver under this section if it determines that the waiver will not cause the State of Nebraska to fail to comply with any of the applicable requirements of medicaid so as to make the state ineligible for the receipt of all funds to which it might otherwise be entitled.

(5) The department shall provide notice of the granting of a waiver to the office of the state long-term care ombudsman and to the Nebraska Advocacy Services or any successor designated for the protection of and advocacy for persons with mental illness or an intellectual disability. A nursing facility granted a waiver shall provide written notification to each resident of the facility or, if appropriate, to the guardian, legal representative, or immediate family of the resident.

71-6018.02. Skilled nursing facility; nursing requirements; waiver; procedure.

(1) Unless a waiver is granted pursuant to subsection (2) of this section, a skilled nursing facility shall use the services of (a) a licensed registered nurse for at least eight consecutive hours per day, seven days per week and (b) a licensed registered nurse or licensed practical nurse on a twenty-four-hour basis seven days per week. Except when waived under subsection (2) of this section, a skilled nursing facility shall designate a licensed registered nurse or licensed practical nurse to serve as a charge nurse on each tour of duty. The Director of Nursing Services shall be a licensed registered nurse, and this requirement shall not be waived. The Director of Nursing Services may serve as a charge nurse only when the skilled nursing facility has an average daily occupancy of sixty or fewer residents.

(2) The department may waive the evening and night staffing requirements for skilled nursing facilities or for long-term care hospitals certified under Title XVIII of the federal Social Security Act, as amended, except the requirement that the Director of Nursing Services be a licensed registered nurse, if:

- (a) The facility or hospital demonstrates to the satisfaction of the department that it has been unable, despite diligent efforts, to hire enough licensed registered nurses and licensed practical nurses to fulfill such requirements. For purposes of this subdivision, diligent efforts include, but are not limited to, offering wages equal to or greater than the community prevailing wage rate being paid such nurses at nursing facilities;
- (b) The department determines that a waiver of the requirement will not endanger the health or safety of residents of the facility or hospital; and
- (c) The department finds that, for any period in which staffing requirements cannot be met, a licensed registered nurse or a physician is obligated to respond immediately to telephone calls from the facility or hospital.

A waiver granted under this subsection shall be subject to annual review by the department. As a condition of granting or renewing a waiver, a facility or hospital may be required to employ other qualified licensed personnel.

(3) The department may waive the requirement that a skilled nursing facility or long-term care hospital certified under Title XVIII of the federal Social Security Act, as amended, provide a licensed registered nurse on duty at the facility or hospital for more than forty hours per week if:

- (a) The facility or hospital is located in a nonurban area where the supply of skilled nursing facility services is not sufficient to meet the needs of individuals residing in the area;
- (b) The facility or hospital has one full-time licensed registered nurse who is regularly on duty at the facility or hospital forty hours per week; and
- (c) The facility or hospital (i) has only patients whose physicians have indicated through orders or admission or progress notes that the patients do not require the services of a licensed registered nurse or a physician for more than forty hours per week or (ii) has made arrangements for a licensed registered nurse or a physician to spend time at the facility or hospital, as determined necessary by the physician, to provide the necessary services on days when the regular, full-time licensed registered nurse is not on duty.

A waiver may be granted under this subsection for a period of up to one year by the department.

Friends and relatives of a resident shall have access during normal visiting and business hours of the facility. Representatives of community legal services programs, volunteers, and members of community organizations shall have access, after making arrangements with proper personnel of the home, during regular visiting and business hours if the purpose of such access is to:

Any person refused access to a nursing home may, within thirty days of such refusal, request a hearing by the department. The wrongful refusal of a nursing home to grant access to any person as required in sections 71-6019 and 71-6020 shall constitute a violation of the Nebraska Nursing Home Act. A nursing home may appeal any citation issued pursuant to this section in the manner provided in sections 71-452 to 71-455.

(2) Nothing in sections 71-6019 to 71-6021 shall be construed to prevent (a) an employee of the department, acting in his or her official capacity, from entering a nursing home for any inspection authorized by the act or any rule or regulation adopted and promulgated pursuant thereto or (b) a state long-term care ombudsman or an ombudsman advocate, acting in his or her official capacity, from entering a nursing home to conduct an investigation authorized by any rules and regulations promulgated by the department.

Such requirement shall constitute a condition of

licensure. The department shall notify the nursing home of such requirement ninety days prior to the renewal of a license or upon application for a license.
